Complexity: 3-Low

Feature: Homepage Header

Test Type: Manual

Description

Verification of showing quantity of items in the Cart if user hover mouse cursor over its icon (0 if cart is empty)

Pre-Conditions:

1. The test environment should be opened on the Homepage
2. The Cart should be empty

Steps to Reproduce :

Scenario 1:

1. Hover mouse cursor over Cart icon on Homepage Header --- Cart icon should be shown 0 quantity of items
2. Verify that Cart icon shows 0 quantity of items if user hover mouse cursor over its icon

Scenario 2:

1. Go to the Products page and add any one item to the Cart --- User should be redirected to the Products page and one item should be added
2. Hover mouse cursor over Cart icon --- Cart icon should be shown 1 quantity of items
3. Verify that Cart icon shows 1 quantity of items if user hover mouse cursor over its icon

Scenario 3:

1. Go to the Products page and add any 6 items to the Cart --- User should be redirected to the Products page and 6 items should be added
2. Hover mouse cursor over Cart icon --- Cart icon should be shown 6 quantity of items
3. Verify that Cart icon shows 6 quantity of items if user hover mouse cursor over its icon

Post-Conditions:

1. The Cart should be empty
2. The test environment should be closed

Expected Result

Cart icon should be shown quantity of items if user hover mouse cursor over its icon (0 if cart is empty)
