Feature: Homepage Header

Time to Write (mins): 120

Time to Run (mins): 60

Complexity: 2-Medium

Test Type: Manual

Description

Verification of allowing input in the Search field for letters in EN/RU/UA, digits, hyphens, space and its combinations by keyboard and copy/paste

Files (attachment): egCombinations_for_inputUS116.xlsx (11.4 KB)

Pre-Conditions:

1. Test environment should be opened on the Homepage

Steps to Reproduce:

Scenario 1:

1. Click on Glass icon on the Header --- Search field should be shown after clicking on its icon

2. Input in the search field letters in EN/RU/UA "asd", "фыв", "фів" by keyboard --- The search field should allow input letters in EN/RU/UA "asd", "фыв", "фів" by keyboard

3. Input in the search field digits "1234567890" by keyboard --- The search field should allow input digits "1234567890" by keyboard

4. Input in the search field hyphens by keyboard --- The search field should allow input hyphens by keyboard

5. Verify that the search field allows input letters, digits and hyphens by keyboard

Scenario 2:

1. Click on Glass icon on the Header --- Search field should be shown after clicking on its icon

2. Input in the search field letters in EN/RU/UA "asd", "фыв", "фів" in uppercase and lowercase and its combinations by copy/paste --- The search field should allow input letters in EN/RU/UA "asd", "фыв", "фів" by copy/paste

3. Input in the search field digits "1234567890" by copy/paste --- The search field should allow input digits "1234567890" by copy/paste

4. Input in the search field hyphens by copy/paste --- The search field should allow input hyphens by copy/paste

5. Verify that the search field allows input letters, digits and hyphens by copy/paste

Scenario 3:

1. Click on Glass icon on the Header --- Search field should be shown after clicking on its icon

2. Input in the Search field letters in EN/RU/UA in uppercase and lowercase and its combinations with digits and hyphens by keyboard (Please refer to "egCombinations_for_inputUS116.xlsx" in attachment) -- The search field should allow input letters in EN/RU/UA in uppercase and lowercase and its combinations with digits and hyphens by keyboard

3. Verify that the Search field allows input letters in EN/RU/UA in uppercase and lowercase and its combinations with digits and hyphens by keyboard

Scenario 4:

1. Click on Glass icon on the Header --- Search field should be shown after clicking on its icon

2. Input in the Search field letters in EN/RU/UA in uppercase and lowercase and its combinations with digits and hyphens by copy/paste (Please refer to "egCombinations_for_inputUS116.xlsx" in attachment) --- The search field should allow input letters in EN/RU/UA in uppercase and lowercase and its combinations with digits and hyphens by copy/paste

3. Verify that the Search field allows input letters in EN/RU/UA in uppercase and lowercase and its combinations with digits and hyphens by copy/paste

Scenario 5:

1. Click on Glass icon on the Header --- Search field should be shown after clicking on its icon

2. Input in the search field space and its combinations with letters, digits and hyphens by keyboard --- The search field should allow input space and its combinations with letters, digits and hyphens by keyboard

3. Verify that the Search field allows input space and its combinations with letters, digits and hyphens by keyboard

Scenario 6:

1. Click on Glass icon on the Header --- Search field should be shown after clicking on its icon

2. Input in the search field space and its combinations with letters, digits and hyphens by copy/paste --- The search field should allow input space and its combinations with letters, digits and hyphens by copy/paste

3. Verify that the Search field allows input space and its combinations with letters, digits and hyphens by copy/paste

Post-Conditions:

1. The test environment should be closed

Expected Result

The search field should allow input letters, digits, space and hyphens and its combinations by keyboard and copy/paste
